

Little Disturbances  
Laura O'Connor

Opening 10th of June, 19:30 to 22:00.

This Saturday, the 10<sup>th</sup> of June, The Windor presents the work of its artist in residence, Laura O'Connor, a Florida born, multimedia artist. Using disconnection and misunderstandings as a jumping point, O'Connor's meticulously crafted objects reference physical boundaries as well as intimate and internal ones. Her images and objects digest the domestic and natural setting, calling on symbols of communication, intimacy and barriers to peel apart the layers where we begin and end.

Currently living in Madrid as a Fulbright Grantee, O'Connor received her BFA from Florida State University in 2016 and is a resident artist at The Windor.

*Little Disturbances* is part of series of exhibitions by Spanish and International artists at The Windor, an artist run space that promotes multidisciplinary art and experimentation. Further information available at [www.thewindor.com](http://www.thewindor.com).
